A. & W. WILSON,
PLUMBERS AND FITTERS.
Bell Hangers and Tinsmiths. Dealers in best descriptions of Heating and Cooking Stoves, Ranges, etc. Ships supplied at lowest rates. Broad street, Victoria, B. C. Telephone call 139

4 MOTHERS, 10 CHILDREN.

These children are being brought up on Castoria. Read what the mothers say about Castoria. There is no opium, morphine or other narcotic substance in Castoria. The formula is printed on the wrapper of every bottle. It is perfectly harmless, pleasant to take and positively effective. Physicians prescribe Castoria, mothers give Castoria, and Children cry for Castoria. It gives the child health and the mother rest.

"I certify that little Robbie Hale, of 466 Portland Avenue, St. Paul, was a thin, crying baby from his birth until he was given Castoria. He began to improve from the first week's trial. Has taken 13 bottles; is perfectly well; weighed 30 pounds the day he was 7 months old, and when this picture was taken. Robbie's changed condition has caused many mothers to use Castoria. It is the best thing for babies I have ever known."
FANNIE MULLIN, Professional Nurse.
466 Portland Ave.,
St. Paul, Minn., Nov. 4, 1887.

"This is a picture of my twins, Charlie and William. It was taken when they were 8 months old. They weigh 16 pounds each. I am indebted to Castoria for their uniform good health."
MRS. HERMINE SCHULZE.
1629 Lexington Ave.,
New York, May 22nd, 1887.

"I enclose you photographs of my 'triplets' 2 boys and 1 girl—Maggie, Pettie and Willie. I owe their health and strength to Castoria. It was through my neighbors' urgent appeals that I commenced its use, as both my boys were thin and inclined to be sickly. At present they are fat and healthy, they weigh 8, 8½ and 9½ pounds, and are 5 months and 3 days old."
MRS. MARY KLINGER,
726 Cortland Ave.,
New York, May 23rd, 1887.

"I enclose you photograph of my quartette, 4 girls. They are now 2 weeks old. The smallest weighs 5 pounds, the others 8 pounds each. My other children have all gained health and strength from the use of Castoria, and I have already commenced giving it to my four little darlings." MRS. ANNA DE GNOSTE.
Milbury, Mass., Nov., 15, 1888. anl-wtf-d8t

PERSONAL.

Movements of Well Known People in Various Directions.

Mrs. J. F. Conant and son of Seattle are at Roccabella.

J. Leamy, of Westminster, and A. G. King, of Nanaimo, are at the Driard.

Miss May Griffiths was among the passengers to Port Townsend by the North Pacific this morning.

U. S. Consul Myers, accompanied by his son, Mr. O. P. Myers, and Vice-Consul Edgar Marvin, paid Rear Admiral Hotham a formal visit on board the Warspite yesterday. The representatives of the United States were kindly received, and, before leaving, took occasion to thank the admiral for his courtesy on the occasion of the accident to the Elder.

"DICK TATE" DEAD.

THE DEFAULTING TREASURER DIED IN CHINA.

His Defalcations Not Near as High as at First Estimated—A Murderous Pugilist Out On Bail—Raging Bush Fires in Montana—Sharon Divorce Case.

NEW YORK, Aug. 9.—A special from Louisville to the Times says: "Dick Tate, the Kentucky defaulting treasurer is believed to be dead. His death, confirmation of which is now more looked for than the fugitive himself, occurred in the opinion of his friends in China more than a year ago. Circumstantial evidence to establish the truth of this opinion is almost beyond possibility. He disappeared about two years ago, leaving his books in a muddle with an apparent deficit of some $30,000. He wrote to his wife for a year, then his letters ceased entirely, and now it is stated by his friends, who should know, that he is dead.

The report of the three commissioners appointed to adjust the mass of papers, valuable and invaluable, which Tate left behind him and whose work has been very quietly conducted for the past two years, was filed with Governor Buckner to-day. It covered more than forty pages of closely written legal cap including every detail of each of the claims good and bad, for and against, which the commissioners found among the effects which Tate left behind him. A big feature of the report and a little of which was made to the legislature last winter is the fact that besides $40,000 or more with which the defaulter was credited a year or so ago the commissioners have found enough good accounts, checks and vouchers to further reduce the defalcation more than $50,000, and the report as now filed with the governor shows the actual defalcation of Tate to have been little more than $150,000 instead of $247,000, the figures at which the states loss was first placed, or for which bondsmen are liable, $23,000 worth of I. O. U's for small amounts from three to four hundred different people were found among Tate's papers.

Out on Bail.

SAN FRANCISCO, Aug. 9. — Frank Larkin the waiter who engaged in a prize fight with H. McBride, another waiter at the Golden Athletic club from the effects of which McBride died, pleaded not guilty to the charge of murder to-day. His bail was reduced from $25,000 to $10,000.

Raging Bush Fires.

HELENA, Aug. 9.—Timber fires are raging in the neighboring mountains. Two wood choppers who were fighting the fires were brought to the city to-day in a terrible condition having been badly burned.

Eluded the Customs.

EL PASO, Tex., Aug. 9.—Last night a gardener named Farrel discovered a man among his trees and his call to come out was answered by a shot. Farrel returned fire and wounded the man who proved to be a Chinaman. He is supposed to have eluded the customs officials and crossed over from Mexico.

Fatal Explosion.

ELLISTON, Mont., Aug. 9.—A boiler at Clark & Seizes sawmill, eight miles south of here, exploded yesterday afternoon. G. S. Kegan was killed and G. Mitchell fatally injured and eight other men received various injuries. The mill was totally wrecked.

Left in a Body.

NEW YORK, Aug. 8.—A general alarm was sent out to all police precincts to-day, announcing the desertion of 500 sailors and marines from the men-of-war Chicago and Atlanta, and ordering their arrest. Late to-night fifty deserters had been captured.

A Laundryman is a Laborer.

WASHINGTON CITY, Aug. 8.—The assistant secretary of the treasury says that the department, having decided that a laundryman is a laborer, a Chinaman who is a proprietor of a laundry would not, under the act of October 1, 1889, be allowed to land in the United States after visiting his native country.

The Best Way.

NEW YORK, Aug. 8.—Dr. A. P. Southwick, father of the electrical execution law, said to-day in an interview: I feel just as I always felt on this matter. There is nothing against the system at all, and the fact is there has been a great deal of senseless sensational talk about the execution. For instance, the big story in regard to froth, saliva, etc., coming from Kemmler's mouth is ridiculous. It was perfectly natural and caused by muscular contractions of the stomach. If the mistake of ordering the current shut off so quickly had not been made there would have been none of this talk. The burning of flesh was also exaggerated, and was caused simply by the fact that the sponge under the electrode was too small. A light current was passing through then, and the sponge having dried out, the electrode just touched the skin. Kemmler never knew what happened to him, and died absolutely without pain.

Not Terry's Wife.

SAN FRANCISCO, Aug. 7.—Judge Shafter to-day rendered a decision in the famous case of Sharon vs. Sharon. It is that Mrs. Terry, wife of ex-Judge David Terry, who was shot by Marshal Nagle while defending Judge Field, was never Sharon's wife, and therefore not entitled to any interest in the estate. Several hundred thousand is involved.

Wants a Turk.

NEW YORK, Aug. 7.—The engagement is announced of Isagi Bey, formerly connected with the Turkish legation in this country, to Miss Allee Jenny, the daughter of a millionaire of Boston. The match has long been opposed by the girl's parents, and the correspondence between the two was carried on clandestinely, but recently the parents consented.

John Must Return.

SAN FRANCISCO, Aug. 8.—Twenty-three Chinamen, recently captured in Lower California, while attempting to smuggle their way across the border from Mexico into the United States, arrived on the steamer City of Peking yesterday morning and were immediately taken to the county jail pending the sailing of the Belgic for China.

Could not Read.

CHATTANOOGA, Aug. 8.—The greatest excitement prevails here to-night on account of the result of the election of county officers to day. This county, which gives ordinarily about 1000 Republican majority, to-day elected the entire Democratic ticket. The change was brought about by the new registration law and the Australian system of balloting. Quite 50 per cent. of the negro vote was lost by the Republicans in consequence of these laws. This is the first time since the war that the entire Democratic ticket is elected in this county.

The Grand Old Man Wins.

LONDON, Aug. 8.—The election to fill the vacancy in the Commons for the east division of Carmarthenshire, caused by the death of David Pugh (Home Ruler), took place yesterday. Thomas (Gladstonian) was returned without opposition.

The Exodus Commenced.

LONDON, Aug. 7.—The exodus of Jews from Russia has commenced. Thousands are leaving with the intention of emigrating to Brazil, and others are fleeing to America.

Down on the Workingmen.

LONDON, Aug. 7.—At a mass meeting of employers of South Wales it was decided that the time had come for united resistance to the tyranny of workmen. Coal has risen one shilling.

King of Dahomey Dead.

PARIS, Aug. 7.—The Temps says: The king of Dahomey is reported dead. Egbasas Marcs will join the French. The Dahomians are trying to intercept him.

Queensland Cabinet Resigns.

BRISBANE, Aug. 7.—The cabinet has resigned, owing to a lack of support in parliament on its budget proposals.

Denouncing Electricity.

LONDON, Aug. 7.—Mr. Preile, chief electrician of the postoffice, in an interview to-day, recalled his denouncing electricity as a means of execution before the British Association, his experience proving the difficulty of killing a rabbit with the most powerful coil ever made. The great difficulty lay in the absence of knowledge as to the amount that would be certain to produce death without torture. From a scientific view, the Kemmler execution was a failure. Without doubt he suffered intensely.

FIENDS AT WORK

Who Endeavor to Wreck a Fast Train—Saved by Honest Tramps.

ERIE, N.Y., Aug. 9.—A special to the World says: The Lake Shore limited, while running near Miles Grove, west of Erie, came near being wrecked at an early hour this morning. The limited is the fastest train on the Lake Shore, and when it left Erie every sleeper was filled. But for the bravery of one of two tramps all the passengers would probably have been hurled to death down the steep embankment to Walnut Creek. The two nomads, while walking west on the lookout for a freight, saw two well dressed men ahead acting in a suspicious manner. The tramps saw the other men take a package from a wrapper and place in under the rail. The tramps say they crept up the track to the spot and found a dynamite cartridge placed so that the engine wheel would hit the cap. Hurrying back to the depot they gave an alarm, and one of them took a danger signal and rushing down the track, swung it and brought the train to a standstill. A search was made for the cartridge, and the fiends' death-dealing instrument was found but the would-be wreckers had disappeared. The trainmen emptied their pockets into the hands of the tramps and the conductor took their names. The passengers were kept in ignorance of their danger until to-day.

SUPPLY OF SEAMEN SHORT.

Naval Vessels and Merchantmen Short of Men—Wages too Small.

SAN FRANCISCO, Aug. 8.—A new naval rendevous has been opened, and the lieutenant in charge is making strenuous efforts to enlist seamen. They are very short, both here and in the east. According to reports of Vilocit, a man-of-war man who arrived yesterday from New York, the Yorktown is short 150 of a full crew. The Pensacola needs 300, the Enterprise 150, the States of Maine and the Philadelphia, new vessels, about 700 between them, and to supply all of these the receiving ship Vermont has only about 100 men on board.

Out here the need is nearly as great. The receiving ship Independence has 120 on board, and only 60 of them belong to her. The San Francisco will soon call for 400, the Alert for 150, the Adams for a similar number, and the Marion for 100. The Ranger sailed with 18 men short and the Thetis lacked 10 of a complement.

Deep water merchant ship sailors for the wheat fleet are in demand, although prices have not gone up yet to any appreciable extent. Fifty-five dollars on English and $65 on American ships are the ruling advance rates.

Merchants Luncheon.

From 11:30 until 2 o'clock and Lowenbran at the Bank Exchange.

Fifty-eight pieces linoleums, latest designs in all widths and qualities, just arrived at John Weiler's.

A young wife who writes from the old homestead:—

DEAR JOHN:—We are just having a lovely time down here at mother's. The cherries are ripe—and baby keeps well. We will expect you Saturday. And be sure you bring mother six packages of Pendray's Extract of Soap. She says it is the best washing powder in the world.

Steam Laundry, telephone No. 497. Branch offices, 74 Yates street and Trounce alley.

THE LABOR TROUBLES.

THE NANAIMO OPERA HOUSE CROWDED.

Unanimity of Opinion Amongst the Provincial Representatives and Citizens That the Sending of Troops Was Unnecessary and an Insult to the District.

(Special to the TIMES.)

NANAIMO, Aug. 9.—Last night Mahrer's opera house was kindly loaned by the Jewell-Russell Co., for the purpose of holding an indignation meeting, to protest against the action of Victoria magistrates sending up an armed force to Wellington.

The opera house was filled, and on the platform was D. W. Gordon, Esq., M. P., C. C. McKenzie, M. P. P., Mayor Brown, M. P. P., New Westminster, Mr. Keith, M. P. P., Mr. Foster, M. P. P., M. Wolfe, Esq., Secy. Board of Trade, A. H. Richardson, Esq., J. Bevilockway, Esq., G. Campbell, Esq.

Mayor Hilbert of Nanaimo took the chair and A. Raper Esq., was appointed secretary. Mayor Hilbert stated that the meeting was called for the purpose of expressing the indignation of the citizens at sending the militia to Nanaimo district. He was sorry that such a meeting had to be called; the soldiers were not to blame, as it was their duty to obey orders, but he considered it a gross insult to the district for any three magistrates to take upon themselves such power; but as time was so short he would not take up any more of their time, but ask for the first resolution to be read.

G. Bevilockway, Esq., said he had much pleasure in moving the following resolution. "That whereas a contingent of armed soldiers has been sent into this district without any local official request having been made for such action, thereby casting an insult upon the residents of Nanaimo district as law-abiding citizens, and holding this district up to the ridicule of the whole Dominion; be it resolved, that this meeting does hereby express its fullest disapproval of such actions, and does hereby urge upon the Government the immediate withdrawal of the troops as an act of justice to this district." The resolution was carried unanimously amid loud cheers.

George Campbell, Esq., moved the next resolution: "Be it resolved,

That the action of magistrates resident out of the district in calling out the militia when they had not, and could not, have any personal knowledge of the real state of affairs, was most unfair and injudicious, and calculated to bring contempt upon the law which they are sworn to uphold."

The resolution was carried unanimously.

A. A. Richardson, Esq., stated it gave him pleasure to be able to show his opinion of the sending of the militia by being present at this meeting; he would now move the following:

"Be it resolved, that a committee be appointed to solicit personally the signatures of the citizens of the district to a protest against the sending of the military to this district, and that the committee shall distribute the district work to sub-committees." Carried unanimously.

Mayor Hilbert called upon Mayor Brown, M.P.P., who was received with loud applause. He said: "Mr. Chairman and Gentleman.—I am sorry to have to meet you on an occasion like this, and as I shall be followed by Messrs. Forster Keith and others, and time is short, I shall be brief. He explained that he was fully in accord with the citizens of Nanaimo in this matter. It was one of the greatest insults that could be cast upon a district. He knew how the banks of the Fraser would act if three magistrates of Nanaimo had to issue an order for militia to be sent there. Nanaimo had the full sympathy of New Westminster in this case, and this act will strengthen the Independent party. He was proud that he represented that party, and proud of Nanaimo for sending two Independent members (cheers). He came because it was his duty to do so." He spoke very strongly of the insult that had been put upon Nanaimo; stating he did not believe that there were three magistrates on the Mainland who would sign such a document if asked as the act this meeting is called to denounce. He concluded with a quotation from Tennyson amid loud applause.

D. W. Gordon, M. P. was sorry that he had to come there on an occasion like this. He did not believe there were any other magistrates in the Dominion who would act as those men had done. As soon as he knew of the action of the Government in sending the troops he telegraphed to Mr. Caron as follows:

NANAIMO, Aug 5th, 1890.

Sir Adolph Caron, Minister of Militia, Ottawa.

On whose authority has detachment of C Battery been sent to Wellington? Neither invasion, insurrection, nor imminent danger of either.

People have obeyed orders of court without murmur; and sending militia is an insult to this district, calculated to provoke trouble.

Order their return to Victoria at once and leave civil authorities free to exercise their functions.

Answer promptly.

D. W. GORDON.

MONTREAL, Aug. 7th, 1890.

D. W. Gordon, M. P., Nanaimo, B. C.

Troops called out in aid of civil power. Authority comes from local magistrates, not from us. A. P. CARON.

And got following reply which shows those men had tried to claim jurisdiction not their own as the district was capable of looking to its own affairs without outside interference. He (Gordon) spoke most strongly against the signers of the order, whom he characterized as three humbugs who should not be allowed to sit on a bench in the Dominion for a day. They should have had a taste of living in tents or cars—and they would not repeat C Battery orders. The district from Cape Scott to Sooke should be [illegible] for the [illegible] for insult. He spoke in glowing terms of the soldiers, and pointed out they had orders to obey but hoped they would have nobler opportunities to gain honor than on the present field, as his visit to Wellington showed him that anyone could walk where he choose with perfect safety. Loud cheers.

Mr. Keith, M.P.P., endorsed the sentiments of the last speaker. He was sorry that the necessity had arrived for him to rise up in a public meeting as a district member and make his protest as the representative of this city against this insult on a law abiding people as sending C battery to the district and saddling on them such an insult. He looked upon the action as all wrong from every point of view, and was glad to see the matter so fully taken up and the hands of members strengthened to act against this outrage of sending troops in their midst without local knowledge of the affairs. (Cheers.)

C. C. McKenzie, M.P.P., said he had been to Wellington and found things so quiet that no town in British Columbia could excel it. There was not even a dog barking. The soldiers were playing billiards as they had nothing to do, it was so quiet. He did not lean very strongly towards the present administration but this had turned him their most vindictive opponent. (Cheers.) They are to blame for this insult as it offered them a fine chance to retaliate for the late election returns. (Applause.) But this shall be fully ventilated till we find who gave the instructions for the invasion. But he knew them well and they would have him as a liberal member voting against such acts. As it was getting late he would take his seat. (Loud cheers.)

Mr. T. Foster, M.P.P., said he was glad to be present and join them in this protest. When first he heard in Westminster district reports of conflagration, bloodshed, dynamite, riot, etc., he replied he did not believe it, as the leaders of the men were too sensible commanders for that. (Applause.) He came over at once to Nanaimo and found all as quiet and orderly as he left it when he went away from the district, and the men cannot so far forget themselves as to make any breach of the law. He would enter his protest as strongly as possible against the military staying here as they were unnecessary here at all.

G. Norris, of the Free Press, was called, and received with loud applause. He replied by going on the platform and thanking them for their enthusiastic call. He was glad to join them here. They all knew by this time how he felt. He was with them, and intended to sift this to the bottom, and would assist all he could to bring the actors to the bar of public opinion. He was at their service and would assist them in every way, whether he offended the actors or not. He was loudly applauded.

Mr. Wolfe, Esq., secretary of the Board of Trade spoke in same strain and said the Board of Trade intended to assist by its actions.

T. Boyce, Esq., president of the M. & M. L. P. A., was called upon and said he did not wish to take part in this meeting on account of his position, but he was glad to see the meeting and the union was stronger than ever, and as the Wellington owners had refused to recognize the union he felt sure they yet would have to bend their proud heads to the union.

G. Campbell moved that Mayor Hilbert, C. C. McKenzie, T. Foster, and J. Keith, M. P. P., form a committee and appoint sub-committees.

A vote of thanks was then tendered to the Mayor, and to the Jewell-Russell Co., who give a benefit for the locked-out men and the meeting then adjourned.

NANAIMO NEWS.

No Procession to Take Place—Col. Holmes Returns—Serious Accident.

(Special to the TIMES.)

NANAIMO, Aug. 9.—There will be no parade of the miners to-day. All quiet. Col. Holmes left for Victoria with three militiamen.

Miss Christie, while out driving last night with two other ladies, had her wrist broken, also one rib, by an upset of the carriage.

CANADIAN SHIPPING.

A Decrease of Tonnage Compared with Last Year's Returns.

The marine department at Ottawa has issued the report on shipping which shows 7,153 vessels on the Dominion register books on December 31, 1889. These include old and new vessels, steamers and barges measuring 1,040,481 tons register tonnage. Compared with the previous year this is a decrease of 49,161 tons register and an increase of 11 vessels. The number of steamers on the registry books was 1,384, making a total tonnage of 205,699. The value of the registered tonnage, therefore on December 31 would be about $31,213,450, assuming the average value per ton to be $30. The total value for new vessels would be about $1,545,570, there being 280 registered during the year measuring 34,546 tonnage.

The following is a statement by provinces:

	Vessels	Steamers
New Brunswick	1,013	91
Nova Scotia	2,855	91
Quebec	1,445	284
Ontario	1,365	659
Prince Edward Island	224	15
British Columbia	176	106
Manitoba	77	40

Of 10,469 steamships registered in the maritime states of the world 5,934 sail under the flag of Britain. There is the same large percentage of British sailing vessels, namely 12,053 out of a total of 17,935. The total registered tonnage of the world is 18,917,198, of which 8,735,685 is registered under the British flag. Ottawa has 101 steamers and 233 barges, of a tonnage of 22,861. The tonnage of Kingston is 24,843; St. Catharines, 21,772, and Toronto, 18,710.

Baby Buggies, the finest and largest assortment in the city at low prices, from $9.50 up, at J. Sehl's 65 Government street.

SUMMER VACATIONS

DR. TALMAGE PREACHES ON THE WATERING PLACES.

With Master Hand He Pictures the Snares and Pitfalls That Entice Unwary Feet During the Period That Should Be Devoted to Rest.

BROOKLYN, Aug. 3.—Come ye yourselves apart into a desert place, and rest awhile.—Mark vi, 31.

Here Christ advises his apostles to take a vacation. They have been living an excited life as well as a useful life, and he advises that they get out into the country. I am glad that for longer or shorter time multitudes of our people will have summer vacation. The railway trains are being laden with passengers and baggage on their way to the mountains and the sea shore. Multitudes of our citizens are packing their trunks for a restorative absence. The city heats are pursuing the people with torch and fear of sunstroke. The long silent halls of sumptuous hotels are all abuzz with excited arrivals. The crystalline surface of Winnipiscogee is shattered with the stroke of steamer, laden with excursionists. The antlers of Adirondack deer rattle under the shot of city sportsmen. The trout make fatal snaps at the hook of adroit sportsmen and toss their spotted brilliance into the game basket. Already the baton of the orchestral leader taps the music stand on the hotel green and American life puts on festal array, and the rumbling of the tenpin alley, and the crack of the ivory balls on the green baize billiard tables, and the jolting of the bar room goblets, and the explosive uncorking of champagne bottles, and the whirl and the rustle of the ball room dance and the clattering hoofs of the race courses attest that the season for the great American watering places is fairly inaugurated. Music—flute and drum and cornet-a-piston and clapping cymbals—will wake the echoes of the mountains.

VACATIONS ARE GOOD, BUT—BEWARE!

Glad I am that fagged out American life for the most part will have an opportunity to rest, and that nerves racked and destroyed will find a Bethesda. I believe in watering places. Let not the commercial firm begrudge the clerk, or the employer the journeyman, or the patient the physician, or the church its pastor a season of inoccupation. Luther used to sport with his children; Edmund Burke used to caress his favorite horse; Thomas Chalmers, in the dark hours of the church's disruption, played kite for recreation—as I was told by his own daughter—and the busy Christ said to the busy apostles, "Come ye yourselves apart into a desert place, and rest awhile." And I have observed that they who do not know how to rest do not know how to work.

But I have to declare this truth today, that some of our fashionable watering places are the temporal and eternal destruction of "a multitude that no man can number," and amid the congratulations of this season and the prospect of the departure of many of you for the country I must utter a note of warning—plain, earnest and unmistakable.

The first temptation that is apt to hover in this direction is to leave your piety all at home. You will send the dog and cat and canary bird to be well cared for somewhere else, but the temptation will be to leave your religion in the room with the blinds down and the door bolted, and then you will come back in the autumn to find that it is starved and suffocated, lying stretched on the rug stark dead. There is no surplus of piety at the watering places. I never knew any one to grow very rapidly in grace at the fashionable summer resort. It is generally the case that the Sabbath is more of a carousal than any other day, and there are Sunday walks and Sunday rides and Sunday excursions.

THE DELINQUENCIES OF PROFESSED CHRISTIANS.

Elders and deacons and ministers of religion who are entirely consistent at home sometimes when the Sabbath dawns on them at Niagara Falls or the White mountains take the day to themselves. If they go to the church, it is apt to be a sacred parade, and the discourse, instead of being a plain talk about the soul, is apt to be what is called a crack sermon—that is, some discourse picked out of the effusions of the year as the one most adapted to excite admiration; and in those churches, from the way the ladies hold their fans, you know that they are not so much impressed with the heat as with the picturesqueness of half disclosed features. Four puny souls stand in the organ loft and squall a tune that nobody knows, and worshipers, with two thousands dollars' worth of diamonds on the right hand, drop a cent into the poor box, and then the benediction is pronounced and the farce is ended.

The air is bewitched with "the world, the flesh and the devil." There are Christians who in three or four week in such a place have had such terrible rents made in their Christian robe that they had to keep darning it until Christmas to get it mended! The health of a great many people makes an annual visit to some mineral spring an absolute necessity; but take your Bible along with you and take an hour for secret prayer every day, though you be surrounded by guffaw and saturnalia. Keep holy the Sabbath, though they denounce you as a bigoted Puritan. Stand off from these institutions which propose to imitate on this side the water the iniquities of olden time Baden-Baden. Let your moral and your immortal health keep pace with your physical recuperation, and remember that all the waters of Hadam and sulphur and chalybeate springs cannot do you so much good as the mineral healing, perennial flood that breaks forth from the "Rock of Ages." This may be your last summer. If so, make it a fit vestibule of heaven.

THE TEMPTATIONS OF THE HORSE RACE.

Another temptation around nearly all our watering places is the horse racing business. We all admire the horse. There needs to be a redistribution of coronets among the brute creation. For ages the lion has been called the king of beasts. I knock off its coronet and put the crown upon the horse, in every way nobler, whether in shape or spirit or sagacity or intelligence or affection or usefulness. He is semi-human, and knows how to reason on a small scale. The centaur of olden times, part horse and part man, seems to be a suggestion of the fact that the horse is something more than a beast.

Job sets forth his strength, his beauty, his majesty, the panting of his nostrils, the pawing of his hoof, and his enthusiasm for the battle. What Rosa Bonheur did for the cattle, and what Landseer did for the dog, Job, with mightier pencil, does for the horse. Eighty-eight times does the Bible speak of him. He comes into every kingly procession, and into every great occasion, and into every triumph. It is very evident that Job and David and Isaiah and Ezekiel and Jeremiah and John were very fond of the horse. He came into much of their imagery. A red horse—that meant war; a black horse—that meant famine; a pale horse—that meant death; a white horse—that meant victory.

As the Bible makes a favorite of the horse, the patriarch, and the prophet, and the evangelist, and the apostle stroking his sleek hide, and patting his rounded neck, and tenderly lifting his exquisitely formed hoof, and listening with a thrill to the champ of his bit, so all great nations in all ages have spoken of him in encomiastic terms. Virgil in his Georgics almost seems to plagiarize from the description of Job. The Duke of Wellington would not allow any one irreverently to touch his old war horse Copenhagen, on whom he had ridden fifteen hours without dismounting at Waterloo, and when Copenhagen died his master ordered a military salute fired over his grave. John Howard showed that he did not exhaust all his sympathies in pitying the human race, for when sick he writes home, "Has my old chaise horse become sick or spoiled?"

YOU CANNOT BE A CHRISTIAN TURFMAN.

But we do not think that the speed of the horse should be cultured at the expense of human degradation. Horse races in olden times were under the ban of Christian people, and in our day the same institution has come up under fictitious names, and it is called a "summer meeting," almost suggestive of positive religious exercises. And it is called an "agricultural fair," suggestive of everything that is improving in the art of farming. But under these deceptive titles are the same cheating and the same betting, the same drunkenness and the same vagabondage, and the same abominations that were to be found under the old horse racing system.

I never knew a man yet who could give himself to the pleasures of the turf for a long reach of time and not be battered in morals. They hook up their spanking team, and put on their sporting cap, and light their cigar, and take the reins, and dash down the road to perdition. The great day at Saratoga and Long Branch and Cape May, and nearly all the other watering places, is the day of the races. The hotels are thronged, nearly every kind of equipage is taken up at an almost fabulous price, and there are many respectable people mingling with jockeys and gamblers and libertines and foul mouthed men and flashy women. The bartender stirs up the brandy smash. The bets run high. The greenhorns, supposing all is fair, put in their money soon enough to lose it. Three weeks before the race takes place the struggle is decided, and the men in the secret know on which steed to bet their money. The two men on the horses riding around long before arranged who shall beat.

Leaning from the stand or from the carriage are men and women so absorbed in the struggle of bone and muscle and mettle that they make a grand harvest for the pickpockets, who carry off the pocketbooks and portmonnaies. Men looking on see only two horses with two riders flying around the ring, but there is many a man on that stand whose honor and domestic happiness and fortune—white mane, white foot, white flank—are in the ring, racing with inebriety, and with fraud, and with profanity, and with ruin—black neck, black foot, black flank. Neck and neck they go in that moral Epsom.

KEEP AWAY FROM IT!

Ah, my friends, have nothing to do with horse racing dissipations this summer. Long ago the English government got through looking to the turf for the dragoon and light cavalry horse. They found the turf depreciates the stock, and it is yet worse for men. Thomas Hughes, the member of parliament and the author, known all the world over, hearing that a new turf enterprise was being started in this country, wrote a letter in which he said: "Heaven help you, then; for of all the cankers of our old civilization there is nothing in this country approaching in unblushing meanness, in rascality holding its head high, to this belauded institution of the British turf."

Another famous sportsman writes: "How many fine domains have been shared among these hosts of rapacious sharks during the last two hundred years; and unless the system be altered, how many more are doomed to fall into the same gulf!" The Duke of Hamilton, through his horse racing proclivities, in three years got through his entire fortune of $550,000, and I will say that some of you are being undermined by it. With the bull fights of Spain and the bear baitings of the pit, may the Lord God annihilate the infamous and accursed horse racing of England and America!

I go further and speak of another temptation that hovers over the watering places, and this is the temptation to sacrifice physical strength. The modern Bethesda was meant to recuperate the physical health, and yet how many come from the watering places, their health absolutely destroyed! New York and Brooklyn idiots boasting of having imbibed twenty glasses of congress water before breakfast. Families accustomed to going to bed at 10 o'clock at night gossiping until 1 or 2 o'clock in the morning. Dyspeptics, usually very cautious about their health, mingling ice creams and lemons and lobster salads and cocoanuts until the gastric juices lift up all their voices of lamentation and protest. Delicate women and brainless young men chassezing themselves into vertigo and catalepsy. Thousands of men and women coming back from our watering places in the autumn with the foundations laid for ailments that will last them all their life long. You know as well as I do that this is the simple truth.

A POOR RULE THAT WILL NOT WORK BOTH WAYS.

In the summer you say to your good health: "Good-by; I am going to have a good time for a little while. I will be very glad to see you again in the autumn." Then in the autumn, when you are hard at work in your office or shop or counting room, Good Health will come and say, "Good-by; I am going." You say, "Where are you going?" "Oh," says Good Health "I am going to take a vacation!" It is a poor rule that will not work both ways, and your good health will leave you choleric and splenetic and exhausted. You coquetted with your good health in the summer time, and your good health is coquetting with you in the winter time. A fragment of Paul's charge to the jailer would be an appropriate inscription for the hotel register in every watering place. "Do thyself no harm."

Another temptation hovering around the watering place is to the formation of hasty and lifelong alliances. The watering places are responsible for more of the domestic infelicities of this country than all the other things combined. Society is so artificial there that no sure judgment of character can be formed. Those who form companionships amid such circumstances go into a lottery where there are twenty blanks to one prize. In the severe tug of life you want more than glitter and splash. Life is not a ballroom where the music decides the step, and bow and prance and graceful swing of long trail can make up for strong common sense. You may as well go among the gayly painted yachts of a summer regatta to find war vessels as to go among the light spray of the summer watering place to find character that can stand the test of the great struggle of human life. Ah, in the battle of life you want a stronger weapon than a lace fan or a croquet mallet! The load of life is so heavy that in order to draw it you want a team stronger than one made up of a masculine grasshopper and a feminine butterfly.

THE PERFUMED FOP.

If there is any man in the community that excites my contempt, and that excites the contempt of every man and woman, it is the soft handed, soft headed fop who, perfumed until the air is actually sick, spends his summer in taking killing attitudes, and quoting sentimental poetry, and talking sentimental nothings, and finding his heaven in the set of a lavender kid glove. Boots as tight as an Inquisition, two hours of consummate skill exhibited in the tie of a flaming cravat, his conversation made up of "Ah's" and "Oh's" and "He-hee's." It would take five hundred of them stewed down to make a teaspoonful of calves' foot jelly. There is only one counterpart to such a man as that, and that is the frothy young woman at the watering place, her conversation made up of French moonshine; what she has on her head only equaled by what she has on her back; useless ever since she was born, and to be useless until she is dead; and what they will do with her in the next world I do not know, except to set her upon the banks of the River of Life for all eternity to look sweet! God intends us to admire music and fair faces and graceful step, but amid the heartlessness and the inflation and the fantastic influences of our modern watering places beware how you make life long covenants!

Another temptation that will hover over the watering place is that of baneful literature. Almost every one starting off for the summer takes some reading matter. It is a book out of the library or off the book stand, or bought of the boy hawking books through the cars. I really believe there is more pestiferous trash read among the intelligent classes in July and August than in all the other ten months of the year. Men and women who at home would not be satisfied with a book that was not really sensible I found sitting on hotel piazzas or under the trees reading books the index of which would make them blush if they knew that you knew what the book was.

"Oh," they say, "you must have intellectual recreation!" Yes. There is no need that you take along into a watering place "Hamilton's Metaphysics" or some thunderous discourse on the eternal decrees, or "Faraday's Philosophy." There are many easy books that are good. You might as well say, "I propose now to give a little rest to my digestive organs, and instead of eating heavy meat and vegetables I will for a little while take lighter food—a little strychnine and a few grains of ratsbane." Literary poison in August is as bad as literary poison in December. Mark that. Do not let the frogs and the lice of a corrupt printing press jump and crawl into your Saratoga trunk or White mountain valise.

WHAT IF LIGHTNING SHOULD STRIKE YOU?

Would it not be an awful thing for you to be struck with lightning some day when you had in your hand one of these paper covered romances—the hero a Parisian roue, the heroine an unprincipled flirt—chapters in the book that you would not read to your children at the rate of $100 a line! Throw out that stuff from your summer baggage. Are there not good books that are easy to read—books of congenial history, books of pure fun, books of poetry ringing with merry canto, books of fine engravings, books that will rest the mind as well as purify the heart and elevate the whole life? My hearers, there will not be an hour between this and the day of your death when you can afford to read a book lacking in moral principle.

Another temptation hovering all around our watering places is the intoxicating beverage. I am told that it is becoming more and more fashionable for women to drink. I care not how well a woman may dress, if she has taken enough of wine to flush her cheek and put glassiness on her eyes she is intoxicated. She may be handed into a $2,500 carriage and have diamonds enough to confound the Tiffanys—she is intoxicated. She may be a graduate of a great institute and the daughter of some man in danger of being nominated for the presidency—she is drunk. You may have a larger vocabulary than I have, and you may say in regard to her that she is "convivial," or she is "merry," or she is "festive," or she is "exhilarated," but you cannot with all your garlands of verbiage cover up the plain fact that it is an old fashioned case of drunk.

Now, the watering places are full of temptations to men and women to tipple. At the close of the tenpin or billiard game they tipple. At the close of the cotillion they tipple. Seated on the piazza cooling themselves off they tipple. The tinged glasses come around with bright straws, and they tipple. First they take "light wines," as they call them; but "light wines" are heavy enough to debase the appetite. There is not a very long road between champagne at five dollars per bottle and whisky at five cents a glass.

SATAN'S DIVERSIFIED GRADES.

Satan has three or four grades down which he takes men to destruction. One man he takes up, and through one spree pitches him into eternal darkness. That is a rare case. Very seldom, indeed, can you find a man who will be such a fool as that. When a man goes down to destruction Satan brings him to a plane. It is almost a level. The depression is so slight that you can hardly see it. The man does not actually know that he is on the down grade, and it tips only a little toward darkness—just a little. And the first mile it is claret, and the second mile it is sherry, and the third mile it is punch, and the fourth mile it is ale, and the fifth mile it is porter, and the sixth mile it is brandy, and then it gets steeper and steeper, and the man gets frightened and says, "Oh, let me get off!" "No," says the conductor, "this is an express train, and it does not stop until it gets to the Grand Central depot of Smashupton." Ah, "look not thou upon the wine when it is red, when it giveth its color in the cup, when it moveth itself bright. At the last it biteth like a serpent and stingeth like an adder."

My friends, whether you tarry at home—which will be quite as safe and perhaps quite as comfortable—or go into the country, arm yourselves against temptation. The grace of God is the only safe shelter, whether in town or country. There are watering places accessible to all of us. You cannot open a book of the Bible without finding out some such watering place. Fountains open for sin and uncleanliness; wells of salvation; streams from Lebanon; a flood struck out of the rock by Moses; fountains in the wilderness discovered by Hagar; water to drink and water to bathe in; the river of God, which is full of water; water of which if a man drink he shall never thirst; wells of water in the Valley of Baca; living fountains of water; a pure river of water as clear as crystal from under the throne of God.

WATERING PLACES ACCESSIBLE TO ALL.

These are watering places accessible to all of us. We do not have a laborious packing up before we start—only the throwing away of our transgressions. No expensive hotel bills to pay; it is "without money and without price." No long and dirty travel before we get there; it is only one step-away. In California in five minutes I walked around and saw ten fountains, all bubbling up, and they were all different. And in five minutes I can go through this Bible parterre and find you fifty bright, sparkling fountains bubbling up into eternal life.

A chemist will go to one of these summer watering places and take the water and analyze it, and tell you that it contains so much of iron, and so much of soda, and so much of lime, and so much of magnesia. I come to this Gospel well, this living fountain, and analyze the water, and I find that its ingredients are peace, pardon, forgiveness, hope, comfort, life, heaven. "Ho, every one that thirsteth, come ye" to this watering place!

Crowd around this Bethesda today! Oh, you sick, you lame, you troubled, you dying—crowd around this Bethesda! Step in it! Oh, step in it! The angel of the covenant today stirs the water. Why do you not step in it? Some of you are too ready to take a step in that direction. Then I take you up in the arms of our closing prayer and plunge you clean under the wave, hoping that the cure may be as sudden and as radical as with Capt. Naaman, who, blotched and carbuncled, stepped into the Jordan, and after the seventh dive came up, his skin rosseate complexioned as the flesh of a little child.

Arrived.

MUNICIPAL.

A BY-LAW

Respecting the Municipal Assessment Roll for the year 1890.

BE IT ENACTED BY THE COUNCIL OF the Corporation of the City of Victoria as follows:—

1. The assessment roll of the said City for the year 1890 shall be returned by the assessor to the clerk of the Municipal Council on the 20th day of August, 1890.

2. Any and all persons complaining of his, her or their respective assessments on the said roll shall within one month after the time hereinbefore fixed for returning said roll notify in writing the clerk of the Municipal Council of his, her or their grounds of complaint.

3. All complaints of which due notice shall have been given shall be heard at the City Hall, Victoria, on the 22nd day of September, 1890, at 11 o'clock in the forenoon, or so soon after as they can be heard.

This By-Law may be cited as the By-Law respecting the Municipal Assessment Roll for the year 1890.

Passed the Municipal Council the 28th day of June, 1890.

Reconsidered and finally passed the Council this 30th day of July, 1890.

A BY-LAW

Prohibiting the Sale or Intoxicating Liquors to Minors Under the Age or 20 Years.

BE IT ENACTED BY THE MAYOR AND Aldermen of the City of Victoria as follows:—

From and after the final passage of this By-Law no person or persons holding a license or licenses from the Corporation of the City of Victoria to sell liquors within the Corporate Limits of the said City of Victoria shall sell or cause to sell or otherwise dispose of or allow to be given or sold upon the premises in respect of which he is licensed any wine, spirits, ale, beer or other intoxicating liquor within the Corporate limits of the said City of Victoria to any person or persons under the age of twenty years, nor shall said person or persons so holding such license or licenses as aforesaid permit any person or persons under the age of twenty years to remain upon his premises so licensed, and shall eject any such person or persons under said age from said premises.

No person or persons so licensed as aforesaid shall permit any gambling, card playing or dice throwing by any person or persons under said age upon any premises in respect of which he holds a license as aforesaid.

Any person violating any of the provisions of this By-Law shall upon conviction be punished by imprisonment for a term not exceeding one month or by paying a fine not exceeding one hundred dollars ($100).

This By-Law may be cited as "The By-Law Regulating the Sale of Liquor to Minors and for Other Purposes."

Passed the Municipal Council the 16th day of July, A. D. 1890.

Reconsidered and finally passed the Council this 30th day of July, A. D. 1890.

Advertisements unaccompanied by specific instructions inserted until ordered out.

Address

THE TIMES P. & P. COMPANY,

WM. TEMPLEMAN Manager.

WHAT DOES THE COLONIST MEAN.

Our contemporary alluding to the Hon. F. G. VERNON's departure for England concludes by saying that the honorable gentleman "having safely locked up the provincial lands can well afford to cross the Atlantic and enjoy a season of rest and recreation." Are we to understand from this that the land department is so securely locked up that in the event of a bona fide settler wishing to purchase some land, he must await the return of the Chief Commissioner of Lands and Works? If such is the case we must record another blunder for the Government. But this is not really the worst feature of the case. We have in the absolute and complete locking up of the public lands, the implication that among all of Mr. VERNON's confreres and acquaintances there is not one whom he dared trust to run his department during his absence. What a state of affairs! The situation is really worse than the TIMES has painted it! And on the whole we shall have to approve of Mr. VERNON's course. It is not often that we are in accord with the gentleman, but it would appear that on this occasion he has displayed a prudence which all honest men must unqualifiedly commend. It is rather severe, though, on his colleagues, that he should have failed to deputize one of them to perform his functions during his sojourn abroad. Not a little remarkable Mr. VERNON's want of confidence, and what is more remarkable still is the imprudence of the Colonist in giving it publicity. The next addition of the Colonist staff, we opine, will be a censor, a Government appointee probably; somebody who can allude to the Government's land policy without giving them clean away.

It is positively disgusting the wild reportorial metaphor which an unscrupulous Opposition may distort opprobriously, and we see the eye-glasses of the government scintillating thereat. The Government land policy "locked up," forsooth! Should the Government's integrity be impugned by one jot or tittle that the "wretched reporter" may successfully contend against "space?".

TWO OPINIONS.

In Friday's TIMES there appeared a report of an interview with Mr. BRYDEN, manager of the Wellington collieries. It will be seen by Mr. BRYDEN's statement that the whole trouble at present existing, and which has existed in Wellington for the past seven weeks, is caused by the refusal of the mine owners to recognize the Miners Union and the pit committee. This has been the opinion of others, but it was considered best to interview one of the representatives of the collieries, that the views of the owners and manager might be obtained.

It will be seen from the interview with Mr. BRYDEN, that the latter, while bitterly opposing the Union and the pit committees, acknowledges that he has never been at a mine where there were pit committees, and that his ideas of them, evidently, were obtained from mine managers of other mines in the States and elsewhere. Consequently Mr. BRYDEN has not been able to judge of his own personal knowledge as to whether a pit committee is a dangerous combination or not.

It is presumed that as a mine manager Mr. BRYDEN's opinion has carried considerable weight with the Messrs. DUNSMUIR, and consequently it is largely due to that opinion that the unfortunate state of affairs now exists at Wellington. Had Mr. BRYDEN conceded to the miners' request, and recommended concessions, there is little doubt that the trouble would have been easily arranged at the first, without all the unpleasant events of the past few days having occurred.

THE TIMES has no quarrel with Mr. BRYDEN. He has probably acted throughout in a manner perfectly in accordance with his convictions; but would a few trifling concessions not have been better for all concerned than the present unhappy state of affairs.

Comparing Mr. BRYDEN's opinion with that of Mr. ROBBINS, or of the pit committee, we discover a wide difference. The latter gentleman as manager of the Vancouver Coal Co's. mines, is certainly competent to give an opinion, and when it is remembered that Mr. ROBBINS, after an unbiassed study of the workings of the pit committee, gives an opinion, it is safe to say that his evidence can be depended upon. It is not hearsay evidence. He says he has been told that pit committees are dangerous to the mine owners' interests; but his opinion is one based on a close observation of the workings and results of such committees. Mr. ROBBINS considers that pit committees are a very useful means for the adjustment of disputes. He considers that they act as an advocate, and lay before the capitalist the grievances of the laborers in a calm and intelligent manner. He does not find the pit committee composed of arbitrary or impractical men, but on the contrary he says that the members are selected from the most intelligent of the miners. He assumes that the miners are men who have been blessed with a sufficient quantity of brains to enable them to distinguish between right and wrong. His method certainly seems to work the best. A diligent enquiry among the men in the collieries controlled by Mr. ROBBINS disclosed the fact that he is highly respected by his employees. It follows, therefore, that when two systems have been tried side by side—one proving a failure and the other a success—that the men who find themselves on the wrong tack should be guided by the experience of those who are pursuing a humane and liberal policy.

No true friend to either party can wish the strife prolonged. Let it stop. Let better counsels prevail and by mutual concessions, none of which need be of great importance, the way will be paved for a satisfactory settlement of the trouble.

HAD BETTER REMAIN SILENT.

We are not inclined to discuss further the merits of the Government's declaration of war against Wellington, because the Government being the under dog, to keep on kicking it were little short of cruelty to animals. We may say, however, that when our contemporary rose from the task of penning "The Best Judges" it must have been breathless. A labored defence of the Government it is, and, as usual, a distinct evasion of questions put by the TIMES, which, were they honestly answered, would put the responsibility of the recent military exhibition where it belongs. If the Government can be exonerated at all, half a dozen lines should suffice. Whenever the Government shall declare that they were not consulted by the magistrates as to the propriety of ordering out troops, or admitting that they were consulted, left the issuance of the requisition for troops to the discretion of the magistrates, then we may be able to entertain seriously some doubts as to the Government's culpability. Of course we do not forget that the magistrates may be induced to shoulder the responsibility of the blunder. There are exigencies when somebody must be slaughtered to save the reputation of men in high places, and it is not impossible that the magistrates should chivalrously offer to exculpate the sanguinary occupants of James Bay. We would advise them, however, not to undertake this variety of vicarious atonement. It wont go down. The Government have made asses of themselves, and they must stand the consequences.

We may say, with reference to the last clause in the Colonist article, that, if "they who are in the best position to form an opinion believe that the soldiers were needed to preserve the peace, etc.," how came it about that the requisition for troops did not issue from the local magistrates? Are we to presume that Victoria magistrates were in a better "position to form an opinion, etc.," than those living on the spot? The Colonist should bear in mind that the circumstances bearing on the case do no admit of its successful defence upon assumptions so far fetched. The best thing the Colonist can do is to maintain a dignified silence. Thus far it has only succeeded in making matters worse for the Government.

EMIN VICTORIOUS.

Emin Pasha, in the philanthropic endeavor to reclaim Africa from barbarism, has quit the function of a moral suasionist, for that of a man; who despite his faith in an over-ruling Providence, nevertheless keeps his powder dry. Recently he met the Ugogos and slew a few thousand of them, by which he enriched his commissary with the addition of 1,200 head of cattle. An Eastern contemporary, adverting to Emin's facile use of the sword, remarks that he "may yet have a long career of useful service in the wilds of Africa, and, it may be hoped, will reduce the savage districts he has conquered to the condition of peace and comparative civilization which he brought about and long maintained as the successor of General GORDON in the now lost equatorial empire of Egypt."

If EMIN PASHA's mission had any other purpose than that of plundering the native tribes of equatorial Africa we might cordially reciprocate his Cromwellian method of establishing, "peace, order and comparative civilisation in the now lost equatorial empire of Egypt." However, what's the difference? What does an "African" and a Mahomedan at that, amount to, any way? The indifference of the world with respect to brigandage in Africa offers a remarkable contrast in point of moral perception to the cry for revenge that would go up in the event of the slaughter by the natives of EMIN and his accomplices.

EDITORIAL NOTES.

The Congo Free State, which has hitherto been regarded as the personal property of King LEOPOLD, will be handed over to Belgium in 1900. It has now a well equipped Government, officials, courts of law, postoffices, customs stations, a standing army of 1,200 to 1,500 men, and a currency of gold, silver and copper.

The elections for the Legislative Council of Prince Edward Island took place recently. The constitution of the island is peculiar. The Assembly is elected practically by manhood suffrage, while the Council is elected by property holders only, and is regarded as the guardian of the rights of property. At one time the abolition of the Council was proposed by the Conservatives of the island, but at the recent election, mindful of the property owners' vote, they declared that abolition was no longer a live issue.

An American journal, the Davenport Tribune, is authority for the statement that Sir JOHN MACDONALD has proposed to buy Alaska as the best way out of the Behring Sea dispute. The Tribune says: "Sir JOHN proposes to buy Alaska from the United States, paying for the same $10,000,000. This would give the United States $3,000,000 more than was paid to Russia for a land which is to-day of comparatively small value. England will then own a spot which should properly belong to her Canadian territory, and at the same time give the fishing privilege which she so much desires. In selling, the United States could demand certain privileges in Behring Sea as well as settle the dispute over Atlantic fisheries. Sir JOHN MACDONALD undoubtedly considers his offer one of sentiment and not for material monetary gain, as such an offer is liberal, when Uncle Sam can pocket $3,000,000, and still have access to the East and West coast fisheries.

HON. JOHN ROBSON AND WELLINGTON.

TO THE EDITOR.—The Hon. John Robson has not only the failure of Mr. Haslam's measure to keep Chinese out of the mine to trouble him. Has he not also the remembrance of the unjust and arbitrary manner in which the people of Wellington were treated by the education department over which he presides. First, they were denied the teacher of their choice, because a permit was refused on the false statement of Superintendent Pope that "there request would certainly be complied with were it not a violation of statute," false because he afterwards granted it at the request of the Vancouver people. Second, their little innocent children under six years of age were ordered out and actually turned out of their school on the false statement of Inspector Wilson that it was a rule of the department which was strictly enforced in graded schools; false because children under six years were then and have since been attending the West Victoria graded school (and possibly in some of our city schools.) Third, one teacher was allowed to try and do the work of three and no extra help was granted because there was no provision in the estimates and thus one teacher had to teach in a room where 200 were enrolled, although an assistant was granted to West Victoria as soon as 68 or 78 were enrolled and with no provision on the estimates for it.

Thanks to the TIMES, however, by ventilating such grievances in its columns, Wellington has now a new school with four rooms and provision in the estimates for four teachers, and it is to be hoped that children of a reasonable age will hereafter be permitted to attend there as at other graded schools. When the people of Wellington endured such treatment, and only employed constitutional means to get their rights, surely the Hon. John Robson need not fear that they will adopt any other means now.

LIVERPOOL, B.C.

The Fraser River Terminus of the New Westminster Southern Railway,

Opposite the rapidly growing City of New Westminster, and having deep water frontage on Fraser River.

The New Westminster Southern Railway runs from Liverpool to Fairhaven, Wash., where it connects with the great Northern Pacific Railway system. The Railway Company has now under construction at Liverpool a wharf 700 feet in length, costing about $10,000, and they intend to immediately erect workshops, passenger and freight stations, etc. The road is already graded between Liverpool and Fairhaven, and it is expected that trains will be in operation between the two places by 30th August, 1890.

A portion of the town site will be on the market on and after 16th June instant, and lots will be sold at low prices for a short time, and purchasers will have the benefit of first prices.

BOURCHIER, CROFT & MALLETTE, REAL ESTATE BROKERS.

THE ATHLETIC CLUB BUILDING.

TO THE EDITOR:—The Athletic Association having applied to have the injunction issued at the instance of Mr. A. B. Gray set aside, the argument thereon was heard this morning by Mr. Justice Drake, who set aside the injunction with costs. In support of the injunction it was proposed by the Attorney-General of the Province that he be made a party to Mr. Gray's injunction, but the court ruled that neither the former nor the latter had any standing in the case, but that the power to remove the building was alone vested in the Attorney-General of the Dominion, as the control of the foreshore was in the central government. Inasmuch as our local government has made a demand upon the city council for the removal of the building, and it now devolves upon the Attorney-General of the Province to make such representations to the proper parties as will secure the removal of the objectionable building by the Ottawa authorities. TEMPLE BAR.

THAT HAIL STORM.

Further Particulars as to the Damage Done in Manitoba.

At Deloraine, Southern Manitoba, the hail started to fall at 5:45, and continued twenty-five minutes. The hail was terrific, and cleaned out three miles north of Deloraine and six miles south, and seven miles west, and then went east toward Boissevain. The best farms and magnificent crops are all totally destroyed. It is estimated that the hail completely destroyed tributary to Deloraine 15,000 acres. All north windows in the town were broken. The storm came from the northwest. Crops are reported all right at Napinka, Melgund, Melita and the west. The storm had a frightful appearance.

The storm came from the west, and extended from range 26 to range 17. The centre of the storm was at the south end of township three, and about five miles wide. Part of it it destroyed a strip of country through the centre of township 4, extending from range 21 to range 18. It broke nearly all the glass on the west and north sides of buildings. The tin roof was taken off the Ryan house. Several kitchens and other buildings were blown down. No one was hurt. It was the worst storm ever seen in these parts.

A Manitou dispatch states that some damage was done in that district.

Much damage was done in the Killarney district.

A Pilot Mound message intimates that about one thousand acres were destroyed in that locality.

TURKISH TORTURERS.

Inhuman Treatment Macedonian Convicts Receive from Their Keepers.

The special correspondent of the London Daily News has succeeded in obtaining admission to the Turkish prison at Uskub, Macedonia, a town of European Turkey. He found that the building contained 149 cells, which were occupied by 1,811 prisoners, or over twelve to a cell. As a rule the unfortunate victims are sent there to be confined from one to ten years each, but so great are their sufferings arising from the barbarity of their keepers and total disregard by the latter of all sanitary laws that one rarely outlives five years. In one cell, two and a half yards square, the correspondent discovered nearly a score of poor wretches panting for air and starving for food, having in the way of the latter nothing but bread and water. The greater number were stark naked, and chained by the ankle and wrist, as if the jailers were unable to inflict tortures enough on their victims. In the dens already described the correspondent found a series of underground cells, said to be reserved for the worst prisoners, where, reeking in total darkness, were those whom Turkish tyranny had singled out for special barbarity. In order to force confessions, where confessions would have proved useful to those in power, the aid of ants is called in. These insects are kept in small boxes for the purpose and fifteen of them are placed at one time on the naked body of the prisoner it is desired to torture. It is also customary to chain the men all day in the scorching sun in such a way that they are unable to move.

A Duke's Vast Domain.

The Duke of Northumberland is one of the largest landed proprietors in Great Britain. To say nothing of his ownings in London, his possessions in Surrey, Middlesex and Northumberland aggregate 200,000 acres, with a rent roll of $875,000 per annum. In Northumberland alone he owns five castles, but it is said that the larger part of his enormous income is derived from his proprietary interest in Drummond's bank. The Marquis of Salisbury, premier at present, owns 20,000 acres, and as much of his real estate lies in London he is very, very rich.

Profit on cheap literature in England is said to be about as follows: A "shilling shocker" pays its expenses when it has sold 4,000 copies, a three-shilling book, upon which grade and all higher grades the price of the cover has to be accounted for, becomes profitable after it has sold 1,500; a six-shilling book when it has sold 1,000 a two-volume library book when it has sold 400, and a three-volume book when it has sold 300.

A Western paper's definition of the term volt: "The volt gives one blow of a specified force. As volts are added together the force of the blow is increased until the endurance limit is reached. It takes about 25 volts to make a perceptable tingling sensation. When 50 volts pass through the body the tingling sensation becomes unmistakeable, but not strong, while 100 volts feels lively, 200 volts strong, 300 volts powerful, 400 volts Titanic, and 500 volts will knock a man flat.

ATE A LIVE RABBIT.

Brutal Sport Indulged in by Miners in Pennsylvania.

News comes from the mining village of Hickman, on the Tom's Run branch of the Pittsburg, Chartiers and Youghiogheny [illegible] Association, Humane Agent O'Brien to-day received a complaint from some citizens of that village of a crime so unusual as to startle him. The complaint states that a number of Italian and French miners from Walker's mills, on the Pan-Handle railroad, are in the habit of congregating at Hickman and wagering bets on the ability of a Frenchman named Maxime to eat live animals. This Frenchman is a small, thick-set man, who, it is alleged, fled from France to avoid imprisonment on complaint of the humane association there. He wagers that he can eat any small animal alive.

On last Sunday afternoon Maxime and fourteen miners went from Walker's mills to Hickman to have a contest. A tame rabbit belonging to Carroll Jones, of Hickman, was captured and a large amount of money wagered. The parties, according to the complainants, were all intoxicated, and frightened the miners' wives so that they fled to the woods in terror.

Maxime was attired in a blue shirt, with a red sash tied jauntily around his waist. The spectators formed a ring around him, and at a signal he seized the trembling rabbit and began to crunch its right forefoot. He ate hide and all, and in a few minutes his brutish instinct so asserted itself that he would hold the dying rabbit in his teeth and shake it like a terrier does a rat, while the blood of the rabbit covered his face and shirt and spotted the drunken group that gazed at him.

The live-animal eater within fifteen minutes consumed all of the rabbit save its hind legs, and then fell exhausted to the ground. He had won his wager, and his backers insisted on being paid. The losers were unwilling to settle, and soon there was a general fight, in which several of the participants were badly injured. Knives were used, but no one was stabbed.

THE NEW ENGLISH RIFLE.

Will Hit a Man, Point Blank, at 500 Yards—Extreme Range, 3,500 Yards.

An official army order gives all the details of the mechanism of the new magazine rifle with which the army is to be supplied. The weight, with magazine empty, is 9 pounds 8 ounces, the new sword bayonet 15½ ounces, the scabbard 4¾ ounces, the magazine when filled with eight cartridges, 13 ounces. The length of the rifle is four feet one inch, and the sword bayonet one foot four inches.

The magazine consists of a sheet steel box inserted from under the body in front of the trigger guard through an opening in the body. It is held in position by a spring in the body engaging in a notch on the magazine. It will contain eight cartridges, and may be filled when in position in the rifle, or when detached by inserting the cartridges one by one. A spring at the bottom of the magazine presses upward a moveable platform, forcing a column of cartridges also upward. A "cut-off" is fitted to the right side of the body, which when pressed inward stops the supply of cartridges from the magazine so that the arm may then be used as a single loader. When the "cut off" is pulled out then the lower edge of the bolt on being driven forward engages the top edge of the uppermost cartridge in the magazine and forces it into the chamber, and so on till the magazine can be removed by pressing a small lever inside the trigger guard.

One magazine is attached to each rifle, being secured from loss by a chain link. A spare magazine is also issued with each arm. The stock, like that of the Martini-Henry rifle, is in two pieces, the fore-end and the butt. Under the hinder part of the small of the butt is a projection forming a so-called "pistol grip." The butt is secured to the body by a "stock bolt." The butt plate is fitted with a tap giving access to the unoccupied portion of the stock-bolt recess, which is arranged to contain an oil bottle and a jag.

The rifle is provided with two sets of sights. The foresight and the backsight are fixed in the usual position on the barrel. The foresight is a square block with a vertical cut through it, showing a fine line of sight. Aim is taken by fitting this square in a corresponding square notch in the backsight, so that lines of light of equal width may be seen on each side of it, and aligning the central line of light on the point to be hit. The lowest or "fixed sight" is [illegible] this sight, a head and shoulders figure can be hit at any distance between 375 and 150 yards, while a six foot figure can be hit up to about 500 yards without in either case aiming off the figures. The highest graduation is for 1900 yards. The rifle is also fitted with extreme range sights. The front sight, which is called the dial sight, is graduated from 1800 yards up to 3500 yards. There are two kinds of ammunition pouches, one holding 40 rounds and the other 50. The cartridge is made of solid drawn brass, and is charged with ordinary gunpowder pressed into the form of a bullet, with both ends slightly rounded.

One of the latest inventions is an electric cane. In appearance it resembles an ordinary walking stick, but it contains an arrangement for storing electricity. Till a spring in the handle is pressed the cane is as harmless as any other cane, but if this spring is pressed and at the same moment a person is touched with the ferrule of the cane he receives a shock that will stun him for the next twenty minutes without doing him any permanent harm. The same apparatus is also placed in the handle of umbrellas and of ladies' parasols.

Do Not Be Deceived.

"In Darkest Africa" is the title of Mr. Stanley's book. All others are bogus.

Stationery at Daley's.

Preserving kettles of all kinds at McLennan & McFeely's.

Edward Bellamy has earned sixteen thousand dollars by "Looking Backward." This is better than Lot's wife, who merely earned her salt.

THE ARGENTINE REPUBLIC.

The Enormous Debt It Has Piled Up in Ten Years.

"The present unhappy state of affairs in the Argentine Republic," said a well-informed banker to a reporter, "is the natural result of trying to boom a country on borrowed money, and a desire to discount the future material prosperity of a country undeniably rich in undeveloped resources.

"As is usual in such cases there has been an enormous waste of money, not to say absolute peculation among the officials having the handling of the funds, and I am not surprised to see it stated in the recent cablegrams that some of these fellows who have been in a position to feather their nests are openly accused of sending money out of the country to provide against a rainy day. We shall very likely hear of some of them living in luxury later on in Paris or London.

"The people are tired of the extravagance that has been going on of late and propose to have a new deal. I am told by a friend who recently came up from Buenos Ayres, that the criminal extravagance in the way of improvements that have been carried on rivals that on the Panama Canal; that while a great deal of work has been done to improve the city and harbor, the cost has been outrageously disproportionate to the results accomplished.

THE ENORMOUS INDEBTEDNESS.

"I saw a statement in the Examiner's dispatch to the effect that the state national debt amounts to $236,341,442, while the provinces and city of Buenos Ayres owe in addition $213,683,252 and $24,044,752, respectively, making a total indebtedness of $574,069,446.

"That enormous sum of money for a country to owe with a population of 6,250,000. Nearly $100 per capita, you see. Our own public debt is about $15 per capita, and we think it no trifling matter to owe in the neighborhood of $789,000,000.

"Then you must recollect that this debt bears a much higher rate of interest, averaging about six per cent., and the bonds, or cedulas, as they are called, which are in serials beginning with A and going nearly through the alphabet, range all the way from 75 to 85 cents on the dollar.

"The premium on gold has mounted higher and higher till it reached 233, as you will see by glancing at this paper published at Buenos Ayres on the 21st of last month.

"That recalls war times with us, and the bulling and bearing of gold goes on, or did before the fighting began on the Bolsa, or stock exchange, with as much recklessness as it did in Wall street. Instead of taking their medicine when a Black Friday comes as we do in this country, they get wild, want to change everything in the shape of administrative government, hoping to escape the consequences of over-speculation and extravagance.

"The chief sources of revenue of the Argentine Republic are the duties on imports—the duties formerly imposed on exports were done away with a few years ago. To this are to be added a number of minor sources, such as a stamp tax, telegraph and railway lines, postoffices, etc.

"In 1870 the revenue collected amounted to a little over $15,300,000, which was ample for all the requirements of the government. This source of revenue has been steadily pressed, until in 1887 the amount collected was over $48,400, while the expenditures of the government increased in the five years from 1882 to 1887 from, in round figures, $28,000,000 to $47,300,000.

"When you consider the fact that it costs the government 7 per cent to collect her customs duties you will see that the financial system of the Argentine Republic is a very faulty one, and that the country must be naturally a very prosperous one to have endured this fearful burden so long.

"From 1886 to the present time the debt of the country has rolled up like a snowball. At that date it was $296,800,000, and it has nearly doubled since. It is quite true that the resources of the country have been growing with a wonderful rapidity, and that immigration has flowed in from Europe in a remarkable manner. In 1877 the immigration was only a little over 36,000. From that year down to the present time it has kept on increasing until last year it was nearly 200,000, the larger proportion being Italians.

LOANS FLOATED.

"The fact is that while Spanish is the language of the country, in the city of Buenos Ayres, the capital of the republic, you will hear about as much Italian spoken as Spanish. Of the total population of 475,000 in that city, there are at least 200,000 of the former nationality.

"The enormous loans floated on the London market might have been well enough had the proceeds been wisely and economically administered, but you know how it is with a borrower, whether a nation or an individual, it dulls the edge of husbandry as much in one case as it does in the other.

"Of course we know that the immediate cause of the crash was the failure of the National banks to pay the regular quarterly dividends. That was merely the result of all I have been telling you. The load had become too great to bear and something had to give way. What the outcome will be remains to be seen."

FOR A BIG STAKE.

Thieves go Through a Woman's Trunk for Diamonds.

BUTTE, Mont., Aug. 7.—A second attempt at robbery for a big stake occurred in the McDermott hotel yesterday. Mrs. Miller, formerly a well known sporting woman here, arrived at the hotel Tuesday from Ogden with her husband. She always carries a large amount of jewelry with her, having on this occasion about $30,000 worth. In the evening she went up to her room, which she had left about noon, and on entering was surprised to find two men in the room, who appeared to be going through the trunks. A pair of pistols were levelled at her before she had time to make an outcry, and she was requested to keep perfectly still.

The thieves soon completed their search and with a couple of bundles left the room, again repeating their caution. Fortunately for Mrs. Miller she had her diamonds on her person at the time, which, in the excitement, the thieves had not noticed. She waited a few seconds, and, running into the hallway, gave the alarm. The thieves had reached the outer door by that time. However, Fred. Wey, proprietor, and a bell boy saw them disappearing and gave chase. The former soon caught up with one of them in an alley in the rear of the hotel, but the fellow turned, and, levelling a pistol at Wey's head and firing another into the ground, asked what he wanted. Mr. Wey concluded he didn't want anything, and told the men to skip without further ceremony.

The thieves evidently expected Mrs. Miller's diamonds were in the trunks, but were obliged to content themselves with a few articles of wearing apparel. They got off with them, and so far have evaded arrest.

A Valuable Bale of Cotton.

CHICAGO, Aug. 7.—A single bale of cotton auctioned on the board of trade here to-day netted $2034.75. The high price realized was due to the fact that the proceeds were to go to an orphan asylum. Each successive bidder after capturing the bale returned it to the auctioneer for another sale, the process being continued until the sum named had been reached. A similar proceeding at St. Louis and Houston, Tex., rounded up $820 for the parentless little beneficiaries. They are the inmates of the Houston Orphan asylum, and the bale was the first of the season, received at Houston from the plantations of Texas. From Chicago the much auctioned bale of white fleece will now be shipped to New York.

The President Consents.

WASHINGTON, Aug. 8.—President Harrison and Secretary Blaine returned yesterday from Cape May, where the subject of reciprocity, along with other political topics, was thoroughly discussed, and it is now understood that Mr. Blaine made out so strong a case for his favorite scheme that the President reluctantly yielded. Indeed, it is reported that the secretary treated the matter very much in the manner of a case at bar, introducing unimpeachable witnesses to testify to the beneficial results of his proposed policy. Mr. Wanamaker took the stand and gave evidence of the great benefit reciprocity would be to the trade of the country, and the President was unable to counteract the weight of the great merchant's testimony, though he attempted to do so by introducing Gen. Grubb, a distinguished representative of the iron interests of the country. The evidence of the latter tended rather to confirm than vitiate the evidence of Philadelphia's leading merchant, and as Blaine backed up his case with the evidence of other valuable witnesses and argued it with the force that only one as familiar as he is with this subject could have done, the President finally yielded.

Exactly what measures the President will take in furthering the plans to which he at last gives his allegiance, cannot be stated, but it is generally believed that the result of the conference will be a message to Congress by the President, recommending the adoption of the Aldrich amendment to the tariff bill, giving power to the President to suspend at his discretion the operation of the bill when advantages of reciprocity may be secured to the country by such action.

The Secretary is naturally highly elated by his triumph, and will doubtless, in return for the President's concession, give support to measures of the administration which hitherto have not met with his support, and the prospects for complete harmony between the party leaders is gratifying to Republicans.

Arrived.

Curling tongs and lamps, ladies pen knives, scissors, etc. and a full line of shaving materials at M. & H. A. Fox's, 73 Government street.

A Child Saved.

My little boy was taken very bad with diarrhœa, he was very delicate and got so low we had no hope of his life, but a lady recommended Dr. Fowler's Extract of Wild Strawberry, and although he could only bear a few drops at a time he got well. It saved my child. MRS. WM. STEWART, Campbellville, Ont.

CITY AND PROVINCIAL.

INJUNCTION DISOLVED.

The James Bay Athletic Club can go on With Their Building.

H. D. Helmcken for the James Bay Athletic club made application before Judge Drake in chambers this morning to have the injunction granted to A. B. Gray restraining further work on their club house dissolved. His lordship in dissolving the injunction said that Mr. Gray was not the proper party to take action as he had not suffered any special injury by the erection of the club house. The proper party to take the action was the Attorney-General for the Dominion of Canada as the matter involved a question of foreshore rights.

GOLD AT OMINECA.

Considerable Quantities of the Yellow Metal Has Been Taken Out.

Advices from the Omineca district, which are undoubtedly veracious, state that there is no longer any doubt but what large quantities of dust will be taken out, and as many miners have been coming in, there is every prospect of a great deal more being taken out next season.

The nature of the report is not of a kind to warrant a rush. The placer mines of Omineca have been known of for some time, and known to be productive in a small way. They are beginning to pan out better now, and there may be good work done. A more thorough report than the one already in should be received before too many hopes are placed on the result. Perhaps the output may not come up to expectations. Meantime further news is looked for.

DUG FROM THE PAST.

Interesting Items From a Victoria Newspaper Thirty Years Old.

Some old copies of the British Colonist were being overhauled by a resident yesterday, who clipped out the following items, which may be interesting. They show that in those days horses were cheap, that Chinese were unpopular, and that then as now a policeman's lot was not a happy one:

August 8th, 1860. The sale of horses.—At the sale of horses yesterday by J. A. McRae, at the What Cheer stables, the animals only brought from $11 to $45 each. Even a beggar might ride at these figures.

August 9th, 1860.—One McDonald, a coal miner from Nanaimo, was fined 10s. yesterday by Judge Pemberton for shaking a stick at several Chinamen in the ravine near Store street.

August 10th, 1860.—Mr. Beavis, one of the chain-gang guard, was charged with leaning against the railing of the treasury building to escape from the rays of a broiling sun, and was fined 10s.

Naval Notes.

H. M. ships Daphne, Nymphe, Champion and Amphion will go out in the straits for target practice next week.

H. M. S. Espiegle is expected to be out of dock by Tuesday next.

The Warspite is still an object of curiosity to a large number who daily visit her.

Young Men's Christian Association.

The regular monthly meeting of the directors of the above institution was held at the rooms last night. The association year ends September 1st, and the reports will show a satisfactory year's work. Forty-three new members were accepted at last night's meeting, making 150 received since March the 1st.

Dread Diphtheria.

This morning Kate Minerva, the 8 year old daughter of Mr. and Mrs. Frank Adams, residing on Fort street, died after a short attack of diphtheria. The little girl was an only daughter, and her parents are prostrated with grief as she gave promise of becoming exceptionally clever. They have the sympathy of many friends in their bereavement.

A Step in the Right Direction.

His Worship the Mayor has called a meeting of the citizens to be held in the city hall on Monday evening at eight o'clock to consider what steps shall be taken to entertain Rear Admiral Hotham and the officers of H. M. navy now stationed at Esquimalt. This is a move in the right direction as since the arrival of the fleet every courtesy has been shown the citizens when visiting the ships. The officers and men always take a part in making a success out of everything that takes place in Victoria and they should certainly be accorded some entertainment during their stay on the station.

Alaska Salmon.

Capt. Porter of the steamer Jeanie, which arrived at San Francisco on the 4th instant, 13 days from Prince William's Sound, reports that the salmon catch has been a dismal failure, the only two exceptions being the cannery at Alitak Bay, which packed 13,000 cases, and that at Kaykak Bay, which packed 11,000. These are only comparative successes, as the Alitak Bay cannery lost $250,000. The Karluk Packing Company, which shipped 250,000 cases last year, has managed to pack only 40,000 cases this year.

A Kyuse's Fun.

The saying that there is lots of fun in a siwash kyuse was verrified this morning on Comorant street, when a lot of stablemen were trying to put one these fiery steeds in harness. The stubborn beast, for kyuses are noted for being about as pigheaded as anything that walks, objected to being hitched up and showed his indignation by knocking one of the men down and then making a break for one of the Chinese hovels on the street, one of which he sent his hind legs through with a vengeance. Before the animal was quieted down two verandahs were torn down and about the whole Chinese population stood about a block away expecting every minute to see their shanties demolished. The pony was finally given to understand that he was no longer on the prairie and that horses are expected to work when they come into civilization.

Vino Scoletti Italiano.

At Dixi H. Ross & Co.

Within the Limits.

Mr. Edward Dickenson says the grass fire near the Fairfield road is within the city limits and that it has approached nearly to his fence. He is of opinion that if it was not there that the insurance risks on houses in the neighborhood would be safer.

To-Day's Sport.

To-day was one of the liveliest among the outdoor athletes that has occurred for some time. At the hill two cricket matches, the Victoria-Westminster lacrosse match, and a baseball game were the principal points of attention, while numerous other pastimes were indulged in. For the more sportive the driving [illegible] between Gaitnon's Spring Box and Lacelle's Whirlwind took place.

Couldn't See It.

In the city police court this morning the first case called was that of A. Dunsmuir, who is charged with allowing stagnant water to remain on a lot owned by him on Yates street. The only witness called was Dr. Milne, health officer, who swore that the water was a nuisance and injurious to health. A rather green lawyer who appeared for the defense, could not agree with the doctor that water could be injurious to health, unless a bad smell arose therefrom and he could not be made, or perhaps did not wish to be made to believe that it was injurious even after the doctor had explained it him. The case, however, was again remanded until Monday, for about the fifth time during the past two weeks.

An Excursion Party.

The employees of the Canadian Pacific Railway at Vancouver will make an excursion to Victoria on the 16th inst., travelling on the steamship Cutch to Nanaimo and by the Esquimalt & Nanaimo Railway from that place to this city. There will be about 300 in the party, which is due to arrive here at 12:40 o'clock on the day named. The Vancouver City Band will be in attendance, and the Vancouver Lacrosse Club (having made arrangements for a match with the Victoria club) will take part in the excursion. This will be the first excursion to Victoria via Nanaimo, and the first made by the employees of the road. We are sure our citizens will extend a hearty welcome to the excursionists, and that their stay in the city will be made as pleasant and agreeable as possible.

Port Crescent.

The work of grading Crescent avenue has been commenced.

The cribbing on the townsite road will be completed by the end of this week.

Work on the tunnel at the breakwater is progressing very rapidly. The tunnel has been driven in for a distance of 68 feet up till noon to-day, and 7 feet yet remain to be driven before the work on the two 30 feet galleries will be commenced, which will take about three days. The crews will be doubled during the coming week and then the work will be pushed more rapidly. It is expected that the big blast will be fired in about three weeks, due notice, however will be given of the exact date. The powder to be used is now on the way here from San Francisco. The blast will be fired by electricity and a dynamo will be put in expressly for that purpose. As we have stated in former issues, this will be the largest blast ever fired on the Pacific coast and will be worth while travelling a long distance to see, so none should fail to avail themselves of the opportunity thus offered.

CATARRH AND COLD IN HEAD HOW CURED

NASAL BALM CURES COLD IN THE HEAD CATARRH

NASAL BALM.

A certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief. Permanent Cure. Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, losing sense of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., BROCKVILLE, ONT.

Beware of imitations similar in name.

All these are facts. Get the quotations and terms from our Brokers,

BOURCHIER, CROFT & MALLETTE, COLONIST BLOCK, VICTORIA, B.C.

PERMITTED TO WORK.

The Wrecker Whitelaw will go to the Steamer Etta White.

The American wrecking steamer Whitelaw left this afternoon for Bucaneer Bay to try, if possible, to raise the sunken steamer Etta White. The customs authorities have granted her a clearance, having become satisfied that no fit vessel to do the work was available other than the Whitelaw. No wrecking gear such as pumps and diving apparatus could be procured either from other sources, as that owned by the C. P. N. Co. has been taken north to the Queen Charlotte Islands to help in wrecking the steamer Sardonyx.

It is well that the customs authorities saw their way clear to allow the Whitelaw to go to the Etta White, for the latter boat is in such a position that any extended delay in saving her will make the chances of success even less than they are now. Had any opposition been offered to the Whitelaw it is safe to say that the Etta White would never be gotten out of her difficulty. While it is to be deplored that no proper craft from this port is available, the underwriters are thankful that the Whitelaw is here to do the work. Had the wrecking steamer Whitelaw been allowed to work at the Barnard Castle when that steamer ran ashore near Race Rocks there is no doubt in the minds of seafaring experts but what the latter vessel might have been saved, and had she got off, a large amount of money would have been spent in Victoria to fully repair and equip the stranded steamer, but by a blunder of the customs authorities the Whitelaw was not allowed to work, and the money was lost to Victoria.

A MOVEMENT ON FOOT

To Hold a Provincial Convention of Labor Representatives.

The Victoria Trades Assembly at its next meeting will unfold a plan providing for a general and comprehensive form of provincial organization. This will be in the shape of holding a provincial convention composed of delegates from the different trades assemblies and labor councils in the province. The convention will be held early this autumn, and the most important matter to be discussed will be the most advisable course to be pursued in bringing to a successful issue the eight-hour-a-day movement.

Mr. C. C. Steurt, secretary of the Westminster Labor council, is now in the city, and discussed the matter informally with some of the representatives in the Victoria trades assembly. Westminster, he says, is strongly in favor of such a convention, as is also Vancouver and Nanaimo. The matter will be further discussed this evening with a view of arriving at an equitable basis of representation. It is not yet known where the convention will be held.

A MADMAN AFLOAT.

The American Ship Lucile Has a Crazy Steward on Board.

The American ship Lucile, 1330 tons, Capt. W. E. Sherman, arrived in the Royal Roads this morning from Saigon, in ballast, after a quick trip of 52 days. A few days before entering the straits, in long. 140° w. lat. 50° w., the bark N. Thayer from Alaska to Frisco was spoken. The trip across was uneventful, with plenty of fog.

On board the ship is a lunatic, who was the steward. The man is a German who was shipped in New York when the vessel made the outward trip to Saigon. On the voyage the man developed symptoms of madness, and although not violent was of no use as a steward. At Saigon he was placed in the hospital, but after a few days was discharged cured. A short time after this he got on the spree, and the old malady returned. Another spell in the hospital was the result, and when the ship sailed the U. S. consul at Saigon made Capt. Sherman take the man along as the Lucile was coming towards the United States. When the vessel arrived here orders to proceed to Nanaimo, where a cargo of coal for Frisco awaits her, Capt. Sherman now wishes to get rid of the lunatic, and to-day visited Consul Meyers in reference to the matter, and the man will probably be sent to the States.

The Lucile has been rather unlucky since she left New York, as the mate was taken sick five days after port was left. Capt. Sherman did all in his power for the officer, but he died five days before port was reached, and was buried in the sea.

Trouble at Melita.

Mrs. W. H. Brown of Melita, Man., states that two of her children and two others belonging to a neighbor, were cured of the worst form of summer complaint by one bottle of Dr. Fowler's Extract of Wild Strawberry, nature's specific for all summer complaints. *

Thermometer at Cochrane & Munn's.

Temperature to-day, 71 deg.

Baggage Express.

The Driard Transfer Co., Northern Pacific office, Government street, connects with all trains and steamboats. Baggage checked to Puget Sound and all eastern points. je12

Escaped.

The two men who deserted from C Battery escaped while awaiting courtmartial, one of them is still at liberty. The other was re-captured and will now have to answer to two charges, deserting and breaking prison.

Bargains for the Week

Bargains at Russell, McDonald & Co.'s, 134 Douglas street.

Men's tailor made Black Diagonal suits worth $22 for $15 per suit.

Gents own material made up for $8.50 per suit.

Scotch, English or American Tweed pants made to order $4 per pair.

Not American.

The dodgers which have been circulated about the city, advertising the entertainment to be given by R. McKenzie Munro in the Victoria theatre this evening, have printed upon them the emblem of the Munro Clan. The emblems bears in a conspicous place an eagle which has been taken by some to be an emblem of Americanism, but this is a mistake, as it is a part of Mr. Munro's emblem.

Sunday Hours.

The Sunday hours at Cochrane & Munn's drug store are 9 to 10.30 a. m., 2 to 5 and 8:30 to 10 p. m.

Mr. Cochrane occupies rooms on the premises, and may be summoned at any hour during the night by ringing the night bell. Parties making use of the bell will know that they are heard by receiving an answering ring. No trouble to wait on you at any time.

Will Attend the Entertainment.

The special meeting of the city council which was to have been held this evening to discuss the new by-laws, etc., will not be held and the business will be laid over till the regular meeting on Wednesday night. The cause of this change is because the aldermen intend to attend the entertainment to be given in the Victoria by McKenzie Munro, the Scotch dancer.

Economical House Warming.

All of the finest modern business buildings and private houses are heated by steam and hot water and the old fashioned stove dispensed with. Among the advantages gained are an even temperature, no coal dust on the furniture, and a saving of fuel and room. See the Safford Patent Radiators now displayed at Richardson & Heathorn's before placing your order. They are simple in construction, highly ornamental, and there are over 20,000 of them in use, which speaks volumes for their worth.

Two Larceny Cases.

Mary Leclaire, a middle aged woman, was charged in the police court this morning with having stolen a musical instrument from one of her neighbors. During the time that the prosecutrix was giving her evidence she was frequently interrupted by Mrs. Leclaire, who persisted in calling her a liar, but at the same time admitting that she had taken the instrument for a lark. After several unimportant witnesses were examined, the case was remanded until Monday.

An Indian was up on the same charge this morning with the exception that he took $10 from another Indian. The matter was settled out of court and the charge withdrawn.

That Smouldering Fire.

The fire on Moss street, near the Fairfield road, which has been smouldering for the past nine days, as a menance to the property holders in the immediate vicinity. The spot is not outside of the city limits, as was said by mistake in last evening's paper, but is just at the city limits. The hose cart has been out there three times but can accomplish very little, as the place is a long distance from the nearest hydrant, and they cannot get to the wells in the neighborhood. Only three men accompanied the hose cart the last time. In the opinion of the resident whose property is close by the fire, a detachment of ten or a dozen men is needed to cut away the hedge, dig a trench and smother the fire with the earth thus removed, or at any rate stop its further progress. The first high wind would fan the smouldering fire into flames, which would seriously endanger the houses in that locality.

Ice Cream made to order and delivered to all parts of the city. Telephone No. 161. New England Bakery Young Bros., No. 116 and 118 Government street.

BRIEF LOCALS.

The Day's Doings in City and Province Briefly Related.

Another Brantford Safety arrived from the east last night.

The Islander brought over eight car loads of merchandise last night.

Goodacre Lake is being refilled, the dry season having almost emptied it.

A Vancouver police officer shot a mad dog on the streets of that city the other day.

Efforts are being made at Nanaimo to get sufficient money subscribed to build a brick fire hall.

The B. C. Agricultural Society are distributing large posters advertising their coming exhibition.

The case of Harper vs. Harper was concluded in the Divisional Court yesterday, but judgment was reserved.

The country school teachers who have been spending their holidays in the city are leaving for their homes to take charge of the schools.

The members of the Natural History Society boarded the steamer Badger this morning and went on a dredging cruise around Esquimalt.

A large number of citizens have signified their intention of attending the Scotch entertainment to be given at the Victoria Theatre this evening.

The Chinese squatters, who have been living in Stanley Park, Vancouver, are to be evicted, as their presence does not add to the romantic beauty of that famed resort.

London Lancet says of hot weather drinks: "Beer and other stimulants are hurtful rather that helpful." The "Montserrat" Lime-Fruit Juice is absolutely pure and is preferable to any form of alcoholic drink.

Mr. J. Montague Leet will deliver an address at Philharmonic Hall on Friday, the 22nd instant, on the social business, professional and political life of the city of Victoria, as effecting immigration to it. Chair taken at 8 o'clock. aug 6 4t

The directors of the Crow's Bar Mining Company held a meeting at Vancouver Thursday evening and discussed the report of the mining surveyor who has just completed an examination of the claim. The preliminary expenditure was estimated at $6,000. Work will be commenced at once.

The coal boring operations at Port Haney are still going on, but with what success is not definitely known, as the strictest secrecy is now maintained by the manager, Mr. Davis. However, it is known that a second spring of mineral water has been struck, and another vein of natural gas, and both are of greater volume than those developed some weeks ago.

SPORTING NOTES.

Brief Resume of Sporting Matters Here and Elsewhere.

The following are the scores of yesterday's matches at Goldstream.

NAUTICAL NOTES.

Items of Interest Along the Water Front—General Marine News.

The C. P. N. Company's sheds are full of incoming and outgoing freight.

The steamer Danube arrived from Vancouver last night with a heavy load of Chinese merchandise for this port.

The steamer Daisy's boiler has been made all O K, and she will leave for business to-night. Her new boiler is expected out shortly.

The bark Ericson, in ballast from Valparaiso, arrived in the roads last evening and was taken up to Nanaimo by the Pilot this morning to load coal.

The bark Lucilla arrived in the roads from China last evening, and will load coal at Nanaimo. She sighted a British loaded merchantman off the the Cape bound in.

The engines of the steamer Alexander are being broken up at the Albion Iron Works, and will be manufactured into other machines, as the old iron brass and copper is valuable.

If what is telegraphed from New York is true, the U. S. cruiser Chicago is what is known among sailors as a "hot ship." Three hundred men deserted from her in one night.

Deep water merchant ships in the wheat fleet at Frisco are in want of sailors. Although prices have not gone up as yet appreciably, $55 on English and $55 on American ships are ruling advance rates.

The steamer Rustler will probably be repaired to-day, when she will return to Vancouver for more lumber. She will bring two loads a week for H. R. Morse & Co., who are doing a big business in the trade now. Two ships have been chartered at Frisco to load at the mills at False Creek.

A beautiful line of china berry sets, dessert plates and flower baskets at John Weiler's *

BIRTH.

TO WHOM IT MAY CONCERN,

THE PUBLIC DECEIVED.

THERE IS A PARTY HERE CANVASSing for a book entitled "Heroes of the Dark Continent" which he is representing to be Stanley's book, this is false, and if you have subscribed for this trash you have been deceived into purchasing a practically unreliable book.

Stanley says once for all that these people cannot by any possibility publish anything of his but what they have dishonestly appropriated from his previous works. His own book will bear the title "In Darkest Africa," and will be published in two octavo volumes, containing about 1130 pages, 16 maps, 150 illustrations, and will bear on the title page the imprint of the Chas. Scribner's Sons and the Presbyterian News Co.

B. Lees is our only representative in Victoria.
